To whom it may concern

The Trust turned to Harris Burns for help on both the recruitment of an Interim Accountant and a permanent Trust Accountant, having failed twice to appoint through our own recruitment efforts.

They have an outstanding knowledge of the sector and a huge contact database of viable candidates and managed to meet our very tight deadlines in providing us with a highly skilled Interim Accountant and an excellent short list of candidates for the permanent role which enabled us to make a successful appointment.

We worked with several members the Harris Burn Team and found all to be highly skilled, dynamic and friendly, keeping us informed at every stage of the process and supporting the final selection and interview day to ensure success.

Having always had a reluctance to work with recruitment agencies the experience with Harris Burns because of their pure professionalism and attention to detail, along with their cost effective and competitive charges have changed our view. The Trust has engaged them to act on our behalf for another Executive role and I would highly recommend them to anyone looking for professional recruitment support.

I am happy to be contacted should anyone want a verbal reference
